

Dear Community Member,

Since **May 29th, 1999**...you've seen the images on television countless times...the car, the faces of our three sons, whose lives were taken that night. You've also seen our faces and have heard the stories. Yet with all of the attention this case has received, you haven't seen the times when we have missed our sons or brothers so badly that we wished we had gone with them. You haven't heard us when we have cried ourselves to sleep... or couldn't sleep for days on end because of so many unanswered questions. Who took the lives from our three sons, our brothers, and why? You also haven't seen us spending sentimental holidays, like birthdays, placing flowers on the boy's grave and crying because we miss the times together that we will never have again. There are so many things about this case that you haven't seen, **but there may be something that you have seen that could help.**

Two years and eight months have past since Kevin, Luis and Matt were taken from us. The professionals who have profiled this situation believe that the person(s) responsible has strong ties to your neighborhood....they lived there or knew it well. We believe someone in your neighborhood has valuable information to help us find the person responsible for taking our children from us. Now is the time to come forward and help us keep this person from hurting anyone else.

Many of your neighbors came forward that night to try to save our boys. For this we are so deeply thankful. But we need your help again. Some of you may possess information that could be useful to help us obtain closure so we can move on with our lives.

Please help us! It is important that you think about that Saturday night, May 29, 1999 around 11:30 p.m. If you know anything, even if you don't think it is important, please call the Crime Stoppers at 834-STOP. If you feel uncomfortable speaking on the telephone, you may write us at: The Families of Matt Hunt, Luis Garcia, and Kevin Shirley, P.O. Box 35207, Albuquerque, New Mexico 87176.

It has been almost three years now and we need your help to move on with our lives. The welfare of our three families rests on your shoulders: please don't let us down. Help us so that none of you have to feel the pain we have been left with. Thank you and our prayers are with you.

Respectfully,

The Families of Matt Hunt, Luis Garcia and Kevin Shirley
